

# GERMAN EUROPEAN SCHOOL SINGAPORE (THE “ASSOCIATION”)

## What is the Association?

*The Association, German European School Singapore, is a ‘not-for-profit’ society. This means that every cent is re-invested into your child’s education. The Association is registered in Singapore. The Association runs and operates the school. The members of the Association are, for the most part, parents of our students.*

## Should I be a member of the Association?

*If you would like to have a say in the strategic direction of the school, then we strongly urge you to become a member. Members vote on major decisions concerning the school at General Meetings and have access to exclusive information through other communication channels. Important decisions taken at General Meetings have included the introduction of the European Section and the new Dairy Farm campus. Members also elect the Board of Governors at General Meetings to represent the Association.*

## What does the Board of Governors do?

*The Association is managed by the Board of Governors. Working with the school management, the Board of Governors provides the strategic direction and develops long-term goals for the school to ensure that our students and teachers have the tools required to receive and provide a high quality education. The day-to-day management is of course in the hands of the school management team. Members of the Association elect the President, Vice-President, Honorary Treasurer, Honorary Secretary and four Ordinary Members.*

## How can I become involved?

*The school benefits enormously from different types of expertise from the GESS community. If you would like to actively participate in the work of the school by providing expertise for a specific project or joining the Board of Governors, please send an email to [GESS.president@gess.sg](mailto:GESS.president@gess.sg).*
